Gives a good lifting action without upper palate interference. A very unobtrusive design that sits well back in the mouth over the thicker, less sensitive part of the tongue. The “Slimma” mouthpiece incorporates a wide low tongue bridge designed to eliminate any chance of upper palate interference whilst leaving much more space for the bridoon – hence a thicker bridoon is an option for a horse that is tentative into the contact.

CODE	MOUTHPIECE	THICKNESS	DRESSAGE LEGAL	SHANK SIZE	4 ½" 114mm	4 ¾" 120mm	5" 127mm	5 ¼" 133mm	5 ½" 140mm	5 ¾" 146mm	6" 152mm	6 ¼" 159mm	6 ½" 165mm
8015-5FV	SLIMMA	14mm	Y	5cm									
8015-7FV	SLIMMA	14mm	Y	7cm
